

Exclusive filterless TSS™ Technology

Contaminated air enters into **Airfree®** by air convection

The microorganisms are eliminated at temperatures of close to 200 °C

The purified air is cooled down before being returned to the environment

The purified air is released and dissipates in the room

Airfree® advantages

Patented and friendly environment technology

Small and portable

Maintenance free

Night light*

Totally silent

2-year warranty

Low energy consumption

Ozone free

*Check the available models.

Breathe better. Live better

Exclusive Filterless TSS™ Technology

Airfree® protects everything and everyone

Homes with mould

Prevents the incidence of must and mould in homes located in humid environments and with low levels of direct sunshine.

Allergy and asthma sufferers

Destroys the allergenic causes of the main respiratory diseases and allergies such as asthma, rhinitis and bronchitis.

Toddlers and mothers-to-be

Reduces the exposure of babies to allergens thereby contributing towards the prevention of respiratory diseases such as asthma.

The Elderly

Guarantees a healthier and safer internal environment for more elderly citizens vulnerable to infections and allergies.

Releases no ozone

Airfree P

The perfect combination of the highly efficient TSS™ air sterilising technology and the award-winning design of the **Airfree® P models**. The **P models** also incorporate a smooth, dimmer-controlled, blue night light.

Model	Capacity	Consumption
P 150	60 m ²	57 W
P 125	50 m ²	54 W
P 80	32 m ²	52 W
P 60	24 m ²	50 W
P 40	16 m ²	45 W

Duo

Airfree® Duo takes air purifying a step further by combining Airfree's patented TSS™ technology with the all new odour eliminator capsule.

Model	Capacity	Consumption
Duo	24 m ²	50 W without fan 52 W with fan on

Tulip

Airfree® Tulip is the ideal solution for compact spaces, combining design and wellness. Despite its size, it is a powerful air purifier with a stunning and slim design that fits with your home décor.

Model	Capacity	Consumption
Tulip 40	16 m ²	45 W
Tulip 80	32 m ²	48 W

Babyair

Babyair incorporates one unique projection of stars and moons night light with choice of colours, creating a relaxing and interactive environment for babies, children and parents.

Model	Capacity	Consumption
Babyair 40	16 m ²	45 W
Babyair 80	32 m ²	48 W

Airfree T

Specially developed for smaller rooms, the **T model** offers the same air sterilisation efficiency of the **P models**.

Model	Capacity	Consumption
T 40	16 m ²	36 W

Lotus

Airfree® Lotus combines a distinctive design with exclusive technology, allowing a change of colours and the opening of the device's petals, inspired by the striking beauty and mysticism of the lotus flower.

Model	Capacity	Consumption
Lotus	60 m ²	54 W

Iris

While it purifies the air, **Airfree® Iris** emits different coloured lights that help to create welcoming and inspiring environments that improve your well-being and comfort.

Model	Capacity	Consumption
Iris 150	60 m ²	57 W
Iris 80	32 m ²	52 W

Fit

The **Fit model** has small dimensions and beautiful design, offering the same performance and efficiency as other **Airfree®** models. It can be fitted to the wall in any room, saving floor space.

Model	Capacity	Consumption
Fit 40	16 m ²	36 W

Standards identical to all models: Voltage: 220-240 V. Total absence of noise in all **Airfree®** models on TSS™ mode. Check availability of the product in your region.
